GS CHEMISTRY CONFERENCES AT VERSAILLES

On Thursday May 30, the “Design, synthesis and characterization of functional materials” day took place on the UVSQ science campus.

This day was organized on the theme of materials chemistry by the GS Chemistry and the interdisciplinary items “2IM, l'Institut Intégratif des Matériaux” and “PSIA2, l'Institut d'Aéronautique et d'Astronautique” of Paris-Saclay.
